Canyonlands National Park is an American national park located in southeastern Utah near the town of Moab. The park preserves a colorful landscape eroded into numerous canyons, mesas, and buttes by the Colorado River, the Green River, and their respective tributaries. While these areas share a primitive desert atmosphere, each retains its own character. The Island in the Sky mesa rests on sheer sandstone cliffs towering over 1,000 feet (304 m) above the surrounding terrain. Every overlook offers a different perspective on Canyonlands' spectacular landscape. Island in the Sky is the easiest area of Canyonlands to visit in a short period of time, offering many pullouts with spectacular views along the paved scenic drive.

Arches National Park

Arches National Park lies north of Moab in the state of Utah. Bordered by the Colorado River in the southeast, it's known as the site of more than 2,000 natural sandstone arches, such as the massive, red-hued Delicate Arch in the east. A long, thin Landscape Arch stands in Devils Garden to the north. Other geological formations include Balanced Rock, towering over the desert landscape in the middle of the park.

Monument Valley is a region of the Colorado Plateau characterized by a cluster of vast sandstone buttes, the largest reaching 1,000 ft above the valley floor. It is located on the Arizona–Utah state line, near the Four Corners area. Monument Valley has been featured in many forms of media since the 1930s. Director John Ford used the location for a number of his best-known films and thus, in the words of critic Keith Phipps, "its five square miles [13 square kilometers] have defined what decades of moviegoers think of when they imagine the American West."

Horseshoe Bend

Horseshoe Bend has been featured as a landmark for Glen Canyon National Recreation Area, Grand Canyon National Park, the Cities of Page AZ, Kanab UT, St George UT, and the Navajo Nation. Boundary lines are very close in some places. About nine miles downstream is where Grand Canyon National Park truly begins. A social media darling, Horseshoe Bend has become one of the most recognized and visited places in the Glen Canyon National Recreation Area.

Lower Antelope Canyon

Lower Antelope Canyon is a slot canyon in the American Southwest, on Navajo Land east of Page, Arizona. Upon arrival at the Lower Antelope Canyon, you will be able to get off the truck and step into the desert and enter the amazing desert world. The tour guides will explain some geology, culture, history and insights about the place. By walking through the sandstone walls of the Lower Antelope Canyon, you will be immersed in its beauty.

Grand Canyon National Park, located in northwestern Arizona, is the 15th site in the United States to have been named as a national park. The park's central feature is the Grand Canyon, a gorge of the Colorado River, which is often considered one of the Wonders of the World. The park, which covers 1,217,262 acres of unincorporated area in Coconino and Mohave counties, has received more than six million recreational visitors in 2017, which is the second highest count of visits in all American national parks after the Great Smoky Mountains National Park. The Grand Canyon was designated a World Heritage Site by UNESCO in 1979.

Grand Canyon South Rim

The Grand Canyon South Rim is located in the middle of the Grand Canyon. The terrain is steep and magnificent. The canyon is bottomless and the largest in terms of scale. The construction of the park is well done and perfect, especially suitable for self-driving on the road. There are no commercial facilities. Almost all viewpoints are kept as original as possible. The large-scale magnificent landscape and the perfect and suitable environment make people feel full of emotion and linger in the face of this master's superb workmanship.

Seven Magic Mountains

Across the desert south of Las Vegas, Nevada, rises a large, colorful anomaly. Seven colossal stone forms defy gravity with their teetering formations. Mediating between geological formations and abstract compositions, Rondinone's Seven Magic Mountains consists of locally sourced limestone boulders stacked vertically in groups ranging between three and six. Each stone boasts a different fluorescent color, and each individual totem stands between thirty and thirty-five feet high. The artwork extends Rondinone's long-running interest in natural phenomena and their reformulation in art.

Outlets at Barstow

Barstow Outlets is located in the desert, on the only way from Las Vegas to Los Angeles. There are not many first-tier luxury brands in this Outlets, but mostly second tier brands, especially local brands within the States. The collections are relatively complete and concentrated, and the service is also quite good, making it a comfortable shopping experience to close out the day.
